PRELIMINARY AMENDMENT

PATENT

IN THE DRAWINGS:

Please replace Fig. 2 with the attached replacement sheet of drawings.

Attachment: 1 Replacement Drawing Sheet

REMARKS

The specification has been amended to identify information relating to the international application and priority application of the present application.

The claims have been amended to remove multiple dependencies and to conform with standard United States Patent practice.

The specification has been amended to identify that line X-X' is a part of Fig. 2 and Fig. 2 has been amended to show line X-X'. Although the original specification describes line X-X', which is omitted from the drawings, as being in Fig. 1, it is clear from the specification and drawings that line X-X' should be shown in Fig. 2. Fig. 5 is described in the specification as a cross-sectional view along line X-X'. However, the cross-sectional view shown in Fig. 5 does not correspond to a cross-sectional view taken at any point of Fig. 1, since Fig. 1 is an exploded perspective view, but corresponds to a cross-sectional view taken along line X-X' in amended Fig. 2.
